I. Personnel

Immediately prior to 1 April 1958, there were approximately 700 employees in the Ministry of Agriculture and Forestry. As of this date, two departments, Saatzucht (Seed Cultivation) and Aussenhandel (Foreign Trade), were discontinued; in their place, two VVBs (Associations of Nationalized Enterprises) were established: VVB Saatzucht, under Koehler (fmu), and VVB Im- und Export. Approximately 100 persons were transferred from the Ministry to these two VVBs, thereby reducing the labor force of the Ministry to about 600.

III. Effects of the Organizational Changes

1. Weakening of the position of the Minister. Two of the most important departments, Cadre and Guidance of Local Councils, have been transferred to the jurisdiction of the State Secretary, the sole remaining deputy of the Minister. State Secretary Skodowski has been a member of the SED Central Committee for several years,¹ whereas Minister Reichelt is a member of the DEP.
2. Economy measures. These have only partially been realized, principally through the discontinuance of the deputy minister positions and the cancellation of bonuses (Leistungszulagen). On the other hand, salaries formerly paid to department chiefs continue to be paid to the new sector chiefs.

3. Preference extended to politically reliable personnel. One major aim of the reorganization of the governmental apparatus was to engineer the dismissal of staff employees, especially older ones who were not adherents to the Party line and so were unreliable, from responsible positions, or to transfer them to less desirable positions. A list of transfers of former officials of the Ministry is given, with the names of the new positions. Several of the former deputy ministers have been demoted to chiefs of departments in district (Bezirk) councils.

IV. Work of the Legal Sector (Sektor Recht)

This section of the report is devoted to a biographic sketch of Ernst Frommhold, the current chief of the Legal Sector, and to a discussion of the processing of complaints of private farmers. A list of typical complaints is given.

V. Cooperation of the Central Committee with the Ministry

The member of the Politburo, (Erich) Mueckenberger, and the chief of the agricultural department of the SED Central Committee, (Franz) Mel-lenthin, do not generally attend meetings of the Kollegium of the Ministry. Reports of activities in the Ministry are forwarded to them by SED liaison men in the divisions of the Ministry.

VI. Party and Trade Union Activities

The Ministry Party Organization (BPO) is under Max Brosselt, a former coppersmith and convinced Communist. The Trade Union (BGL) is completely controlled by the Party. The document contains a brief description of the work of the BGL.

VII. Brief biographic sketches of Ministry officials are included in this section.

Copies of Beschluss 58/13, dated 4 November 1954, of the Presidium of the Council of Ministers, on the management of run-down farms, and of the Arbeits-anweisung, dated 23 February 1955, to the Beschluss, are attached as annexes to the main report.
